

Sonneborn mss. II
Manuscripts Department, Lilly Library
Indiana University, Bloomington, Indiana

Dear Tracy: Have just read with great D
pleasure your Sigma Xi lecture in the Ame-
rican Scientist. A beautiful lecture. Much
amazed by the repeated references to the
"entirely different mechanism mentioned on
page 46". Feel now obliged to pursue the
theoretical study of this little model and its
variants a little further and hope to do
so some time soon with the help of a suitable
graduate student. Kindest regards
Pasadena
